## **MEDICATION POLICY**

Health and safety are priorities for KCCE. Please ensure your child's information is accurate by completing the medical information portion on your Registration Form. Campers who require prescribed medication at camp must indicate this on the registration form- this includes inhalers. Medication forms are available prior to and during camp from the Camp Supervisor. Medication must be prescribed by a physician and must be kept in its original container. They will be kept in a locked box in the camp office. If your child develops a communicable disease during camp (e.g. Pink Eye), we ask that you inform staff immediately. This will allow us to inform other participants so they can take the necessary precautions.

An Authorization Form for the Administration of Topical Medication (SUNSCREEN)& (HAND SANITIZER) must be completed by the parent of a child who is requesting that a non-prescription topical medication (SUNSCREEN) & (HAND SANITIZER) be administered during hours that the child receives child care, in accordance with KCCE's medication administration policy and procedures.

## **INCLUSION POLICY**

KCCE supports inclusive practices and will make every effort to accommodate children with special needs. In doing so, the staff will work with both the parents/guardians and community agencies to ensure that our programs are accessible to all children. This includes not only programming, (i.e. developing and amending plans to meet varying developmental need of the children), but also recognizing the need for other supports including the use of technology if/when possible, revising furniture/equipment to make activities more accessible, training and development of staff etc. We will develop an Individual Support Plan with input from the parent. This plan will be shared with the staff working directly with the children.

## **ANAPHYLAXIS POLICY**

In compliance with Sabrina's law, it is our goal to ensure that all children enrolled in our programs are not at risk of exposure to anaphylaxis causative agents. For every child with life threatening allergies, we will develop an individual plan and emergency procedure with input from the child's parents. This plan will include a description of the child's allergy, monitoring and avoidance strategies, signs and symptoms and any action that needs to be taken in the event the child has an anaphylactic reaction. This plan will be shared with the staff working directly with the children. Each staff will be trained on the procedures to be followed in the event of a child having an anaphylactic reaction, how to recognize the symptoms and how to administer medication. **Parents MUST train staff designate on the first day of camp.**

## **HEAT ADVISORY**

Camp will continue during heat advisory warnings; however, campers will be moved indoors to a more moderate climate and programs will be adjusted for indoor conditions. ***Please note not all our facilities are not air conditioned, however each class is equipped with fans.*** We encourage campers to bring their water bottles daily.

## **PICK UP/DROP OFF**
